

fence • alarm™

Monitoring Your Fence 24/7

Works with ALL Energizer Brands to provide continuous 24/7 fence protection.

With the revolutionary new Fence-Alarm™ you're only a text message away from knowing your fence's condition and voltage. Instead of taking hours inspecting your fence or wondering if it's working properly, Fence-Alarm will notify you within seconds of a fence-related issue.

- **Works on all brands and types of fence energizers**
- Receive real-time alerts of your fence condition via text or e-mail
- Set a low voltage threshold to fit your needs
- Monitor your fence status via the free mobile app, text, or on the website
- View historical data of your fence via the app or website
- Add additional users to your monitoring system so they can receive important alerts too
- Uses solar power and cellular technology, making it possible to easily install anywhere on your fence (On average can run 30 days without direct sunlight)

Check your Fence Anywhere – In the Car, At Home, or On the Go!
With Fence-Alarm Peace of Mind is Only Seconds Away.
